To Whom It May Concern

With great pleasure I write this highest recommendation for Ohno Construction Company.

Our organization “partnered” with Ohno Construction to build a nearly twelve acre athletic sports park in Irwindale California on Federal land located between numerous rock quarries. Thus, our project was extremely challenging in dealing with both the complexities of the rocky soil and the numerous Federal, State, County and City agencies that we needed to navigate to bring the project to completion.

Ohno provided both the construction experience and the management prowess to realize our organization’s dream. At every step Ohno Construction understood our needs and interests and made numerous suggestions to save us money and make our project better.

The true nature of people is revealed in tough conditions, and we were blessed to face many such unforeseen encounters with our property. Through all these circumstances, we learned to value the integrity and diligence of working with Ohno Construction. I appreciated the daily online updates and direct communication we received throughout the project. During construction, our management team worked so cohesively with Ohno that we always felt as one team with a mutual goal. Ohno brought new and creative ideas to each issue and always had our bottom line cost in mind. I cannot give enough praise and appreciation to both the Principals, including Yosh and Barbara Ohno and the team on the ground lead by Joe Fant, John Karlsson and especially Bob Riley.

Though I will spare you reading the book we need to write to explain all the unforeseen difficulties we faced, I can truly say that the probability of completing this project without working with Ohno Construction would be less than ten percent.

When deciding on a contractor, it’s important to find someone who values doing an honest job at an honest price and isn’t trying to milk each opportunity to supplement their profit. We have that complete confidence in Ohno Construction. We know Ohno Construction put us first.

I am pleased to talk with you further and I give Ohno Construction permission to give you my cell number.

Sincerely,

John H. Martin

Executive Director

Re: Recommendation for Ohno Construction

Barbara,  
I had the pleasure of working with Ohno Construction on the Kare Park project in Irwindale. I have been working with contractors on park construction for over 30 years and can confidently say that Ohno is one of the most qualified contractors I have worked with. The attention to detail is unmatched and communication with myself and the rest of the design team and owner insures that the project is installed correctly and smoothly.

I highly recommend Ohno Construction. The company and staff were an invaluable part of the team to make sure the construction of Kare Park was a success.

Sincerely,  
**RHA Landscape Architects-Planners, Inc.**
